New York City

Dear Mr. Merchant:

I am returning application for patent which you drafted. Please note on page 3, lines 13 and 16 you say, "saturated." I think it would be better to use the word, "moistened" because it does not have to be saturated to do the job. I did not see the use of the word any other place. With this one change I think the application is in order for filing.

Cordially yours
